SUBCHAPTER I. CONSTRUCTION, EQUIPMENT, MATERIALS, AND MACHINERY CONTRACTS

§ 49.271. Contracts for Construction Work

- (a) Any contract made by the board for construction work shall conform to the provisions of this chapter.
- (b) The contract shall contain, incorporate by reference, or have attached to it the specifications, plans, and details for work included in the contract. All work shall be done in accordance with these plans and specifications and any authorized change orders under the supervision of the board or its designee.
- (c) The district may adopt minimum criteria for the qualifications of bidders on its construction contracts and for sureties issuing payment and performance bonds. For construction contracts over \$25,000, the district shall require a person who bids to submit a certified or cashier's check on a responsible bank in the state equal to at least two percent of the total amount of the bid, or a bid bond of at least two percent of the total amount of the bid issued by a surety legally authorized to do business in this state, as a good faith deposit to ensure execution of the contract. If the successful bidder fails or refuses to enter into a proper contract with the district, or fails or refuses to furnish the payment and performance bonds required by law, the bidder forfeits the deposit. The payment, performance, and bid bonding requirements of this subsection do not apply to a contract for the purchase of equipment, materials, or machinery not otherwise incorporated into a construction project.
- (d) The district may also require attendance by a principal of each prospective bidder at mandatory pre-bid conferences and may make any reasonable additional requirements regarding the taking of bids the district may deem appropriate in order to obtain competitive bids from responsible contractors and to minimize contract disputes.

Added by Acts 1995, 74th Leg., ch. 715, § 2, eff. Sept. 1, 1995.

Amended by Acts 2001, 77th Leg., ch. 1423, § 16, eff. June 17, 2001.

§ 49.272. Reports Furnished to Prospective Bidders

The board shall furnish to any person who desires to bid on construction work, and who makes a request in writing, a copy of the engineer's report or plans and specifications showing the details of the work to be done. The board may charge for each copy of the engineer's report or plans and specifications an amount sufficient to cover the cost of making the copy.

Added by Acts 1995, 74th Leg., ch. 715, § 2, eff. Sept. 1, 1995.

§ 49.273. Contract Award

- (a) The board shall contract for construction and repair and renovation of district facilities and for the purchase of equipment, materials, machinery, and all things that constitute or will constitute the plant, works, facilities, or improvements of the district in accordance with this section. The bidding documents, plans, specifications, and other data needed to bid on the project must be available at the time of the first advertisement and the advertisement shall state the location at which these documents may be reviewed.
- (b) A contract may cover all the work to be provided for the district or the various elements of the work may be segregated for the purpose of receiving bids and awarding contracts. A contract may provide that the work will be completed in stages over a period of years.
- (c) A contract may provide for the payment of a total sum that is the completed cost of the work or may be based on bids to cover cost of units of the various elements entering into the work as estimated and approximately specified by the district's engineers, or a contract may be let and awarded in any other form or composite of forms and to any responsible person or persons that, in the board's judgment, will be most advantageous to the district and result in the best and most economical completion of the district's proposed plants, improvements, facilities, works, equipment, and appliances.
- (d) For contracts for \$25,000 or more, the board shall advertise the letting of the contract, including the general conditions, time, and place of opening of sealed bids. The notice shall be published in one or more newspapers circulated in each county in which part of the district is located. If one newspaper meets both of these requirements, publication in such newspaper is sufficient. If there are more than four counties in the district, notice may be published in any newspaper with general circulation in the district. The notice shall be published once a week for

three consecutive weeks before the date that the bids are opened, and the first publication shall be not later than the 21st day before the date of the opening of the sealed bids.

(e) For contracts for \$15,000 or more but less than \$25,000, the board shall solicit written competitive bids on uniform written specifications from at least three bidders.

(f) For contracts of less than \$15,000, the board is not required to advertise or seek competitive bids.

(g) The board may not subdivide work to avoid the advertising requirements specified in this section.

(h) The board may not accept bids that include substituted items unless the substituted items were included in the original bid proposal and all bidders had the opportunity to bid on the substituted items or unless notice is given to all bidders at a mandatory pre-bid conference.

(i) If changes in plans or specifications are necessary after the performance of the contract is begun, or if it is necessary to decrease or increase the quantity of the work to be performed or of the materials, equipment, or supplies to be furnished, the board may approve change orders making the changes. The aggregate of the change orders may not increase the original contract price by more than 10 percent. Additional change orders may be issued only as a result of unanticipated conditions encountered during construction, repair, or renovation or changes in regulatory criteria or to facilitate project coordination with other political entities.

(j) The board is not required to advertise or seek competitive bids for the repair of district facilities if the scope or extent of the repair work cannot be readily ascertained or if the nature of the repair work does not readily lend itself to competitive bidding.

(k) The board may use the reverse auction procedure, as defined by Section 2155.062(d), Government Code, for purchasing.

Added by Acts 1995, 74th Leg., ch. 715, § 2, eff. Sept. 1, 1995. Amended by Acts 1997, 75th Leg., ch. 1070, § 19, eff. Sept. 1, 1997.

Amended by Acts 2001, 77th Leg., ch. 436, § 9, eff. May 28, 2001; Acts 2001, 77th Leg., ch. 1423, § 17, eff. June 17, 2001.

§ 49.274. Emergency Approval of District Projects

If a district experiences an emergency condition that may create a serious health hazard or unreasonable economic loss to the district that requires immediate corrective action, the district may negotiate limited duration contracts to make the necessary repairs. The district shall submit to the executive director details describing the specific serious health hazard or unreasonable economic loss as soon as practicable following the issuance of the contracts. Whenever possible, the district should obtain prior approval of the executive director before authorizing the contract, but failure to obtain prior approval shall not void the contract. This section does not apply to special water authorities.

added by Acts 1995, 74th Leg., ch. 715, § 2, eff. Sept. 1, 1995.

§ 49.275. Contractors

Any person, firm, partnership, or corporation to whom a contract is let must give good and sufficient performance and payment bonds in accordance with Chapter 2253, Government Code, and any minimum criteria for sureties issuing such bonds adopted by a district in accordance with Section 49.271.

Added by Acts 1995, 74th Leg., ch. 715, § 2, eff. Sept. 1, 1995.

§ 49.276. Payment for Construction Work

(a) The district shall pay the contract price of construction contracts only as provided in this section.

(b) The district will make progress payments under construction contracts monthly as the work proceeds, or at more frequent intervals as determined by the board or its designee, on estimates approved by the board or its designee.

(c) If requested by the district or district engineer, the contractor shall furnish a breakdown of the total contract price showing the amount included for each principal category of the work, in such detail as requested, to provide a basis for determining progress payments. In the preparation of estimates, the district engineer may authorize material delivered on the site and preparatory work done to be considered if the consideration is specifically authorized by

the contract and if the contractor furnishes satisfactory evidence that he has acquired title to the material and that it will be utilized on the work covered by the contract.

(d) In making progress payments, 10 percent of the estimated amount shall be retained until final completion and acceptance of the contract work. However, if the board at any time after 50 percent of the work has been completed finds that satisfactory progress is being made, it may authorize any of the remaining progress payments to be made in full. Also, if the work is substantially complete, the board, if it finds the amount retained to be in excess of the amount adequate for the protection of the district, at its discretion may release to the contractor all or a portion of the excess amount. The district is not obligated to pay interest on amounts retained except as provided herein. The district shall not be obligated to pay any interest on the 10 percent retainage held on the first 50 percent of work completed. If the district holds any retainage on the remaining 50 percent of the work completed, the district shall pay interest on such retainage from the date the retainage is withheld to the date of payment to the contractor. The interest rate to be paid on such retainage shall be the rate of interest paid by the district's depository bank on interest bearing accounts of similar amounts during the period of time interest accrues as provided herein.

(e) On completion and acceptance of each separate project, public work, or other division of the contract, on which the price is stated separately in the contract, payment may be made without retention of a percentage.

Added by Acts 1995, 74th Leg., ch. 715, § 2, eff. Sept. 1, 1995.

§ 49.277. Inspection of and Reports on Construction Work

(a) The board shall have control of construction work being done for the district under contract to determine whether or not the contract is being fulfilled and shall have the construction work inspected by the district engineer or other designated person.

(b) During the progress of the construction work, the district engineer or other designated person shall submit to the board detailed written reports showing whether or not the contractor is complying with the contract, and when the work is completed the district engineer shall submit to the board a final detailed report including as-built plans of the facilities showing whether or not the contractor has fully complied with the contract.

Added by Acts 1995, 74th Leg., ch. 715, § 2, eff. Sept. 1, 1995.

§ 49.278. Nonapplicability

(a) This subchapter does not apply to:

- (1) equipment, materials, or machinery purchased by the district at an auction that is open to the public;
- (2) contracts for personal or professional services or for a utility service operator;
- (3) contracts made by a district engaged in the distribution and sale of electric energy to the public;
- (4) contracts for services or property for which there is only one source or for which it is otherwise impracticable to obtain competition; or
- (5) high technology procurements.

(b) Sections 252.021(a) and 252.042, Local Government Code, apply to high technology procurements.

Added by Acts 1997, 75th Leg., ch. 1070, § 20, eff. Sept. 1, 1997.

Amended by Acts 2001, 77th Leg., ch. 1423, § 18, eff. June 17, 2001.

§ 49.279. Prevailing Wage Rates

In addition to the alternative procedures provided by Section 2258.022, Government Code:

(1) a district located wholly or partially within one or more municipalities or within the extraterritorial jurisdiction of one or more municipalities may determine its prevailing wage rate for public works by adopting the prevailing wage rate of:

(A) one of the municipalities; or

(B) the county in which the district is located or, if the county in which the district is located has not adopted a wage rate, the prevailing wage rate of a county adjacent to the county in which the district is located; and

(2) a district not located wholly or partially within the extraterritorial jurisdiction of a municipality may determine the district's prevailing wage rate by adopting the prevailing wage rate of the county in which the district is located or, if the county in which the district is located has not adopted a wage rate, the wage rate of a county adjacent to the county in which the district is located.
